Choosing a Career Path

Choosing subjects for Grade 10 is an important decision that influences your future career opportunities. It's a challenging choice for a 14 or 15-year-old, especially with peer and parental pressure. At Roosevelt Academy, we encourage learners to select subjects that provide a well-rounded education, fostering growth, development, and continuous learning.

While subjects should not be chosen solely based on a career, it helps to consider the field you may want to enter. For example, if you are interested in health, commerce, or science, explore the career options within those fields to guide your subject selection.

Remedial Classes

Afternoon remedial classes are offered free of charge to all learners. These sessions run from 14:30 to 16:30 and provide supervised study time, homework help, and extra tuition where necessary to help learners meet academic standards.
